

CEA Bargaining Update

October 23, 2023

SHAME ON CUSD!!!

Once again CUSD has proven that students and staff are NOT a priority in this district. CEA has made many concessions during this bargaining round with regards to contract language and other articles. After reaching TAs (tentative agreements) on every other article, Article 9 "Evaluations" remains unresolved which holds up ratification of agreed upon TAs.

It is apparent that CUSD assumed that since a semi-decent salary and health care proposal was offered, CEA would be foolish enough to accept bogus evaluation language. The current team will not fall for anything that does not benefit members as a whole.

CUSD insists on making unreasonable demands regarding contract language that is not found in any surrounding District's contract language.

CUSD refuses to hold administrators accountable to meeting evaluation timelines.

CUSD continuously moves members throughout the school year, creating undue stress which has resulted in an increase in resignations.

CEA is tired of having our time wasted!

It is imperative that **EVERY MEMBER** show up to the next school board meeting on November 14, 2023 at 6 pm to support members who are speaking. Now is the time to show CUSD we are DONE being treated this way!
